

Statins expert-auto MeSH gap by evaluation design and classifier

Expert - Auto WSS@95% difference

Statins expert-vs-auto MeSH gap by condition

Condition	Gap	95% CI
Canonical BoW (5-fold, full n=2,744)	0.096	[+0.075, +0.116]
Subsampled BoW (5-fold, n=803)	0.033	[-0.022, +0.092]
10-fold BoW (10-fold, full n=2,744)	0.021	[+0.001, +0.041]
BiomedBERT (canonical design, classifier change)	0.020	[-0.021, +0.062]

Gap change vs. canonical BoW, evaluation design only
